PUBLIC DOMAIN

## PUBLIC DOMAIN

CA&I specialises in delivering high quality public domain projects. Since CA&I inception we've had continued involvement in the development of streetscapes, open spaces and related infrastructure.

### PROFESSIONAL APPROACH

CA&I's approach to these spaces is what separates us in the construction industry from others. CA&I considers itself as an extension of the client's organisation. We understand that our client's reputation is under the close eye of the public and we our commitment to Public Domain projects starts with strong public liaison services. CA&I appoints to every project a Project Manager who is supported by an experienced Public Liaison Officer. We aim to deliver our projects with minimal impact to the community where at all possible.

CA&I finds itself highly sought after for complex and high quality public spaces. We have a history award winning projects that extends across both open space and streetscape projects.

### AWARD WINNING OPEN SPACES

CA&I has delivered open space projects of all scales for government and private developers. These include:

- Large recreational parklands
- Foreshore developments
- Bushland Regeneration
- Regional Parks
- Playground Programmes
- Pocket Parks

We have worked in closely in collaboration with many highly credentialed designers in the industry. Our practical experience coupled with our desire to maintain the designers intent has provided opportunities to value add to projects in many ways with the collective support of all project stakeholders.

With regard to open spaces, we are highly experienced in:

- Earthworks
- Groundwater and stormwater related infrastructure
- Irrigation
- Supply and installation of turf, plants and trees
- Public art installations
- Water features
- Lighting and electrical
- Cycleways and pedestrian facilities
- Carpark and access roads
- Wharfs and Jetties
- Retaining structures
- Directional and interpretive signage

### HIGH QUALITY STREETSCAPES

Delivering premium streetscapes is a complex and challenging task. CA&I are experts in this field. We minimise the impact to the public and by doing this we retain a supportive community throughout the construction process. Types of streetscape projects CA&I have successfully delivered include:

- Main street improvements
- Transport interchanges
- Cycleways
- Street tree programs
- Local and regional road improvement programmes

Streetscape works demand a high number of trades and professions working within close proximity. We typically offer the following works within any streetscape project:

- Protection of existing assets
- Demolition
- Stormwater infrastructure
- Electrical undergrounding
- Utility adjustments
- Trees and planting beds
- Stonework
- Walls and other structural works
- Light poles
- Pedestrian / bus shelters
- Public amenities buildings

- Road and footpath pavements
- Kerb and gutter
- Paving
- Street Furniture
- Traffic and pedestrian management

### THE RIGHT CREDENTIALS

CA&I are members of numerous government construction panels. We are third party accredited to ISO 9001. Our OH&S system is third party accredited to NSW Government OH&S Guidelines. We have worked in some of the most challenging environmentally sensitive areas in Australia. Our clients are assured of a construction service for their public domain projects that will be remembered as outstanding.
